Please follow these instructions carefully to actively reduce the risk of electronic shock, and injury to persons or property

- ◆ Keep all crevices and openings of the product unblocked.
- ◆ Do not set the product on a heating register or over a radiator.
- ◆ Ensure that you provide proper ventilation at the installation site.
- ◆ Do not use while standing in or nearby water (e.g., bathtubs, kitchen sinks, or swimming pools).
- ◆ Do not use it unless your body - and especially your hands - are completely dry.
- ◆ Never insert objects of any kind into the product vents as that may result in fire or electric shock.
- ◆ Do not use liquid cleaners, aerosol cleaners, chemicals, or cleaning agents to clean this product.
- ◆ Clean this product with a soft, damp cloth.
- ◆ Do not disassemble this product

If your device requires service or repair work, please contact our Support Department. Read and understand all instructions and save them for future reference.

Follow all warnings and instructions as marked on the product. Save these instructions.

Introduction

Thank you for purchasing this adapter, This user guide will provide comprehensive information to maximize the utility of your adapter. We kindly request that you review the instructions diligently. It's important to note that wireless Android Auto function only works in the smart phone built in this app and equipped with 5GHz Wi-Fi.

How to check a car has CarPlay/ Android Auto or not

1. Search for the compatible models on the Apple website:
<https://www.apple.com/ios/CarPlay/available-models/>
2. Search for the compatible models on the Android website:
<https://www.android.com/auto/compatibility/>

CarPlay

Android Auto

Please make sure your car have both wired CarPlay and wired Android Auto function. If your car only has the wired CarPlay but do not have wired Android Auto, the wireless Android Auto will not work with our adapter.

Enjoy your Brand new Adapter

This adapter designed to wireless CarPlay and wireless Android Auto .With this adapter, you can use wireless CarPlay and Android Auto anytime, regardless of whether your phone operating system is iOS or Android. Make sure your phone can meet the requirement of wireless interconnection Mobile phone software version that supports wireless CarPlay or Android Auto

iPhone : iOS 10 or Newer

Android : Android 11 or Newer

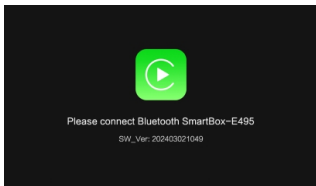

Plug this adapter into the USB port of the vehicle. The port may be marked with a CarPlay car icon or a smartphone icon.

You will see a prompt image, connect your phone to the corresponding Bluetooth name.

(Note: Android Auto does not prompt for images)

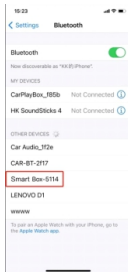

Getting Setup

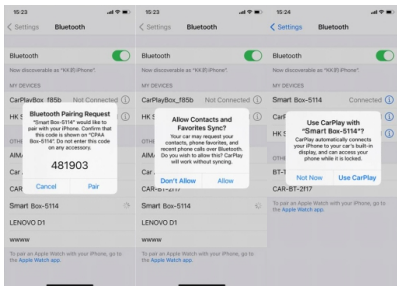

1.For iPhone

Before pairing with a new iPhone, please forget the Bluetooth and Wi-Fi device you have connected, like the factory car Bluetooth or the Wi-Fi dashcamera.

1.1 Turn on your iPhone's WiFi and Bluetooth, then pair to the Bluetooth named "SmartBox-xxxx"

1.2 Tap "Pair-Allow-Use CarPlay" on the iPhone popup notifications

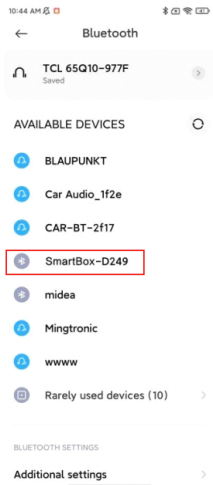

1.3. It will connect to wireless CarPlay after a few seconds.

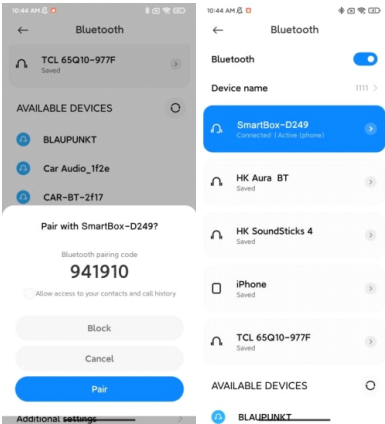

2.For Android

Before pairing with a new Android phone, please forget the Bluetooth and Wi-Fi device you have connected, like the factory car Bluetooth or the Wi-Fi dashcamera.

2.1 Turn on your Android smart phone's WiFi and Bluetooth, then pair to the Bluetooth named "SmartBox-xxxx".

2.2 Tap "Pair-Allow" on the Android smart phone pop-up notifications

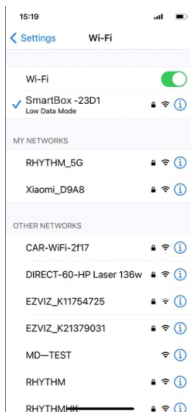

2.3 It will connect to wireless Android Auto after a few seconds.
Note: Because the Android Auto do not have the prompt image like CarPlay, after your connected wireless android auto via our adapter at first time, the prompt image will not be displayed unless you forget current device and reconnect the CarPlay device.

Note: please do NOT plug it into the car stereo to make the upgrade. Because many car stereo USB ports will lose power when updating, and that will cause the adapter failure.

Please plug it into a stable power supply source like a phone charger or a computer's USB port.

1. Use iPhone connect to the adapter WiFi (Password is 12345678). If your phone could not find the WiFi, please join the adapter WiFi network [SmartBox-xxxx] manually.

2. Use your phone to enter 192.168.200.1 on iPhone's browser, then tap "upgrade" if there is an upgrade available.

Q: What should I do if there is no response when I plug in the product?

- A: 1. Replug the adapter;
2.Pull out the product, then check if the original car's wired Apple CarPlay/ Android Auto can be used normally;
3.If it still not working, please contact us to get a replacement.

Q: Can't connect automatically.

- A: 1. Please turn on your phone's Bluetooth and WLAN, and make sure both Bluetooth and WLAN do not connect to other devices. Neglect the original car Bluetooth;
2.Replug the adapter. If it doesn't work, then forget this adapter's Bluetooth on phone. Reboot your phone and repair the Bluetooth;
3.If it still doesn't help, please reference the Update on phone steps to upgrade the firmware.

Q: When stuck in the connection state, and it keeps connecting, what should I do?

- A: 1. Please click settings - clear pair list, and ignore the Bluetooth pairing record on the phone, then restart your phone;
2.Restore the factory settings of the original car.

Q: My phone can identify the product Bluetooth/WiFi, but my car does not enter the connection page.

- A: 1. Reset the box: Use your phone to scan the QR code below or enter 192.168.200.1 on iPhone's or Android smart phone browser. Then select the Factory reset;
2.Restore the factory settings of your original car system.
